### Technical specifications "Moments" apartments in Tseri

Foundation & Framework	The building frame will be of reinforced concrete in accordance with the architectural plans, statistical calculations and anti-seismic specifications. The strength of the reinforced concrete is C30/37.
Thermal insulation	The entire external shell (masonry, exposed floors and roof) of the building will be based on the Engineer's study on Energy Efficiency. The exterior walls of the building will be insulated using a certified external thermal insulation system which will be comprised of 8cm polystyrene insulation boards as stated in the Energy Performance Certificate (EPC). The thermal insulation capacity of the building will be class A.
Brickwork	<u>Externally</u> All external walls will be 25cm thick. <u>Internally</u> The dividing walls of the apartments will be 25cm thick for better sound insulation. All other internal walls within the apartments will be 10cm thick.
Roof	The roof of the apartment building will be of reinforced concrete C30/37. Extruded polystyrene insulation boards (8cm thick) will be placed on the concrete slab to ensure thermal insulation. A 4mm thick parchment paper will be used to ensure that the roof is even more insulated.
Coatings	Internally all walls, beams, slabs and columns will be made three coats of plaster. The third coat will be the finishing coat, except in cases where the surface is fair-faced or it is not visible or it is behind shelves or cabinets or it is going to be covered with tiles. Plastic corner beads will be placed in the corners. A plastic mesh will be placed at the points where the masonry walls are joined with concrete in order to avoid cracks. The ceilings are made of fair-faced concrete and will be troweled.
Painting work	<u>Externally</u> All the walls will be painted with paint for external use, unless otherwise indicated in the architectural drawings. <u>Internally</u> All walls and ceilings, unless otherwise stated, will be painted with three coats of Emulsion or Maxicot paint (colour snow white). The selling price includes the basic color portfolio of the company with only one colour for the whole apartment and white ceilings.
Floors and coverings	<ul style="list-style-type: none"><li>All the internal and external floors will be covered with tiles from specific suppliers at a purchase value of €20.00/m<sup>2</sup> + VAT. Tile trims will be placed of the same type as the floor.</li></ul>

## YSS MAVROMICHALIS DEVELOPER
